

The Aperture Test Drive

A hands-on seminar for professional photographers.

Apple is hosting a national tour in major cities to showcase Aperture, the first all-in-one post-production tool for photographers. Join us and take a test drive, so you can experience firsthand how Aperture provides workflow efficiency from start to finish—dramatically shortening the time between the shoot and delivery to the client. [Click here to register!](#)

Designed for Professional Photographers

Built for pros, Aperture makes working with images in RAW format as easy as working with JPEG—allowing you to import, edit, catalog, organize, retouch, publish, and archive your images more effectively than ever before. From capture to output, you work directly with your RAW files, without having to convert them into another format.

Aperture's color-managed workflow and flexible design tools make it easy to create stunning prints, customized contact sheets, and web pages that are as beautiful as the images you capture. Fine-tuned to maximize the advantages of Macintosh hardware and Mac OS X, Aperture offers breakthrough speed and quality—whether you're working with RAW, JPEG, or TIFF formats.

What You Will Learn

- ▶ Discover hands-on how to use tools such as the loupe and the light table in the digital realm, where Aperture's nondestructive image processing allows you to be more creative and flexible.
- ▶ Learn about the solid, secure Apple platform, and how Aperture can help you to deliver your best work on deadline.
- ▶ Find out how Aperture's output tools allow you to get your work in front of customers more quickly.
- ▶ See how Aperture makes working with RAW images as easy as working with JPEG.

Who Should Attend?

Whatever kind of photography you do—fashion, wedding, sports, portrait, fine art, commercial, or editorial—even if you're a budding amateur, this test drive is an ideal opportunity for you to see Aperture in action. If you work with RAW, JPEG, or TIFF formats and you're seeking the next level of integrated workflow management with hundreds or thousands of photos, this seminar will be of particular interest to you.

Registration must be done online, so click below or go to www.macaauthority.com to register. Space is limited. Seating is available on a first-come, first-serve basis
